TRISKELION™

CLASSIFIED TO NFPA 2500 GENERAL USE

The CMC Triskelion is a fully featured industrial rescue tripod that sets a new benchmark for rapid deployment, ease of use, and versatility. With its 5.5 – 10 ft working height, certification to NFPA and EN standards, and multiple rigging options, the Triskelion delivers greater safety and efficiency for confined space and industrial rescues.

FEATURES

- Third-party certification to NFPA General Use, EN 795, and CEN/TS 16415 assures the Triskelion meets the minimum breaking strength of each standard.
- 10 ft max working height allows rescuers to haul patients from a confined space using a harness or litter and 5.5 ft min working height facilitates access in low-clearance areas. 4 in leg increments help fine tune tripod height.
- Rectangular legs with built-in stoppers, tethered push pins, and high contrast graphics allow teams to quickly and easily align adjustment holes and set the desired height.
- · Includes leg packing strap and reinforced carry bag with diagram for proper packing, easily carried by two people using end handles or a single person using the padded center shoulder strap.
- · Supported by custom accessories that enhance its capabilities and make it even easier to use including Triskelion Winch Adapters, Foot Steps, and Ground Stakes.
- · A single red webbing hobble strap secures all three legs at the base with a quick-connect Cobra Buckle, creating a system that is easier to see and lighter weight than chain, and faster than using multiple lengths of material.

SPECIFICATIONS

- Footprint inside Ø of feet 1580 2820 mm (62.2 111 in)
- Footprint outside Ø of feet 1930 3170 mm (76 125 in)
- . MBS attached direct to head 36 kN (8,093 lbf)
- MBS attached to leg over pulley 22 kN (4946 lbf)

Option	Weight	Dimensions (mm)
CMC Triskelion Tripod	32 kg (70 lb)	1700 x 310 x 310
Triskelion Foot Step Kit (2)	1.3 KG (2.8 lb)	224 X 286 X 360
Triskelion Ground Stake Kit (3)	3.1 KG (6.8 lb)	312 X 321 X 321
Triskelion Equipment Bracket	1.0 KG (2.2 lb)	146 X 127 X 146
Triskelion LokHead Winch Adapter	2.8 KG (6.2 lb)	240 X 170 X 132
Triskelion Salalift II Winch Adapter	1.6 KG (3.5 lb)	140 X 101 X 110
