CRES GUARD® MOBILE DECONTAMINATION - MOIST HEAT

MODEL # CGMH73A

FEATURES AND BENEFITS:

- Fully insulated cabinet to decontaminate Personal protective equipment and gear at a recommended temperature of 185 F and humidity control at 65% RH for a 15-minute cycle. It is preset by the factory for repeatability and effective decontamination.
- Powerful, yet efficient 2000 Watts heating system maintains the right combination of heat and humidity for proper decontamination.
- The system maintains optimum conditions through continuous monitoring of both temperature and humidity. Temperature and humidity values are measured, displayed, and controlled through intuitive solid-state controller.
- New, easier to use, easy-to-read and operate LED digital display ensures holding at precise temperature and humidity.
- Low water indicating LED and water heater shut off when water is at critically low level to prevent damage to equipment and to achieve appropriate conditions for decontamination.
- Stainless steel construction throughout with internal frame in body and doors plus reinforced internal base maintains structural rigidity.
- Smooth interior coved corners prevent particle buildup and allows easy cleaning.
- Insulated doors with antimicrobial latches prevent temperature loss and protect against spreading germs. Silicone door gaskets for proper seal.
- Recessed push/pull handles on both sides prevent damage to walls; allows easy maneuvering.
- Stainless-steel support angles accommodate racks on adjustable 1-1/2" centers; allows for modular configuration.
- Stainless steel hanger supports to accommodate hanging of gears such as jackets, trousers and vests.
